

# Liverpool Counts Quality Mark

## SILVER

We are pleased to announce that Springwood Heath Primary School has gained the Liverpool Counts Quality Mark. This is an exciting project in Liverpool to promote Mathematics in our school, community and city.

The aims of the project are:

- to raise the profile of Mathematics
- to create a positive ethos
- to make real life connections
- to show how Mathematics can affect future life choices
- to make connections between Mathematics and other subject areas
- to share and celebrate the enjoyment of Mathematics.

EVERYONE in our school community was involved.

We have raised the profile of mathematics throughout the school and the wider school family!
